PROFILE

Self-motivated Software Developer and Data Science graduate with a strong foundation in building scalable, testable applications. I have a proven ability to design end-to-end systems and manage complex relational databases. A fast learner with professional experience and the acumen to excel.

PROFESSIONAL EXPERIENCE

NASTP Silicon, *Financial Data Analyst and SWE Intern* 03/2026 – Present | Karachi, Pakistan

- Created and maintained PowerBI/Webapp dashboards for top executives, ensuring clear insights into the previously disjointed data, and digitizing systems previously severely bottlenecked by manual handling.
- Collected and assembled multiple data sources into a revenue model to improve finances for stakeholders.

Self, *Freelance Web Developer* 10/2025 – 04/2026 | Remote

- Delivered custom web solutions and interactive user interfaces.

Virtual World (ibex.co), *Data Analyst Intern* 07/2024 – 09/2024 | Karachi, Pakistan

- Implemented and streamlined data pipelines by dockerizing the architecture to accelerate deployment efficiency.
- Designed and developed a multi-faceted Employee Retention Dashboard using Metabase and Superset, providing management with analyzed and enhanced analytical data.
- Supervised by Senior Data Scientist, learning the industry best practices in BI reporting and pipelines.

EDUCATION

Ghulam Ishaq Khan Institute of Engineering Sciences and Technology (GIKI), *Bachelors of Science in Data Science* 09/2021 – 06/2025 | Topi, Swabi

Fazaia Model Inter College Mushaf, *Higher Secondary School Certificate* 2019 – 2021 | Sargodha

Fazaia Inter College Minhas, *Secondary School Certificate* 2017 – 2019 | Kamra

SKILLS

R | Python | SQL | HTML/CSS | PowerBI / Looker / Metabase / Superset | Docker |
Data Mining/Analysis | C++ | Team Player

CERTIFICATES

Certificate of Appreciation - Career Fair 2022 GIKI

AWARDS

First Position Regionally - Punjab, ICATS Science Contest

01/12/2015

PROJECTS

Bus Ticket Reservation System

- Developed a reservation system that secured passenger details and stored them, and randomly produced bus rides, employing extensive use of DBMS concepts.
- Achieved desired results using resources such as SQL, Python, and Excel.

AirBnB Market Analysis

- Presented a comprehensive analysis of the AirBnB market using Power BI, focusing on designing a client-based dashboard that delivered informative insights.
- Examined and catalogued data using Excel, PowerBI, and Python.

PakWheels ETL Pipeline

- Created and containerized an entire ETL pipeline using Docker Compose to ensure reproducible services across end-systems.
- Transformed raw data with Apache Spark to establish an analytical-ready Data Lake output.
- Planned data movement with the help of DAGs and introduced the Parquet format to streamline the process of data querying and storage.

Data Driven State of Health Estimation of Lithium Ion Cells in EVs - Final Year Project

- Developed a predictive analytics dashboard webapp based on analyzed data of Lithium-ion Battery State of Health (SoH) important to EV reliability.
- Applied Machine Learning on real-time sensor data (Voltage, Temp) and past performance to forecast complex trends of battery degradation.
- Provided predictive health indicators, which enhanced the analysis of the safety and the lifetime of battery systems.
- Utilized a tech stack including React, Python, VSCode, Arduino, and FastAPI.

EXTRACURRICULARS

3D Developer / Artist (Volunteer), BenchMark Sims

08/2023 – Present | Remote

- Collaborated with an interdisciplinary and multinational team to envision and develop a new set of tooling for aircraft simulation.
- Investigated and learned 3D Modelling techniques to achieve precise aircraft recreation and delivered high-fidelity models.
- Participated in beta-testing for public releases of Falcon BMS, identifying and tackling issues to improve product quality.

Director Tech, GIKI Science Society

03/2022 – 04/2025 | GIKI Institute

- Managed and lead a sizable team of society members on tasks related to Graphic Design, Branding, Videography. Held training sessions to impart knowledge onto future directors.
